**Drug Facts**

**Active ingredients**  
- Isopropyl Alcohol 72.5% (w/w)  
- Povidone-Iodine USP 8.3% (0.83% available iodine)  

**Purposes**  
- Antiseptic

**Use**  
For preparation of the patient’s skin prior to surgery. Helps reduce bacteria that potentially can cause skin infection.

**For Single Use Only**  
Contents sterile if package is intact. Solution not exposed to sterilant.

**Lot No.**  
Exp.

**Contents**  
1 Applicator with Urethane Sponge  
2 Cotton-Tipped Swabs

**WARNING: FLAMMABLE, KEEP AWAY FROM FIRE OR FLAME.**

**Contents sterile if package is intact. Solution not exposed to sterilant.**

**Lot No.**  
Exp.

**U.S. components assembled in Mexico except as indicated:**  
Cotton-Tipped Swabs Made in China

**U.S. patents Nos. 6,228,354 and 7,201,525.**

**CareFusion**, Leawood, KS 66211 USA  
Each bottle contains 1.4 fl oz (40ml)  
CF36-1735
Your surgeon used Prevail-FX® Surgical Solution, a fast-acting broad-spectrum persistent antiseptic-containing preparation that significantly reduces the number of micro-organisms on intact skin. The prep film may remain on the skin after the procedure and will eventually wear away. If, however, early removal is desired:

**Wash site with high pH-level soap and water.**

**OR**

**Soak gauze with 70% isopropyl alcohol and place on the prepped area for at least 40 seconds. Lightly scrub to remove the solution.**

Report serious side effects, call: **1-800-523-0502** Mon.-Fri. 8 AM-5 PM CST
