

BD Diagnostics

Becton, Dickinson and Company hereby certifies to

that samples of all **BBL**[™] brand prepared plated, tubed and bottled media received by the above named customer were quality control tested and performed acceptably according to **BBL** specifications, which includes CLSI (formerly NCCLS) standards where appropriate, as specified in the Clinical and Laboratory Standards Institute Document M22-A3 Quality Assurance for Commercially Prepared Microbiological Culture Media.

BBL quality control specifications are provided in the Quality Control and Product Information Manual for Plated and Tubed Media, or can be provided by contacting BD Technical Services at 800-638-8663.
