

# BD EpiCenter™ Microbiology Data Management System

Barcode Printing Software

## The EpiCenter Barcode Printing Advantage

Adding optional barcode printing software to EpiCenter improves efficiency and positively identifies specimens.

Helping all people  
live healthy lives

# Adding the Barcode Printing Software to your BD EpiCenter™ System provides technologists with an efficient method for labeling specimens.

## EpiCenter Barcode Label System

- Positively identifies patient and accession number
- Barcode formats supported by all BD automated systems
- Crisp clear image ensures correct barcode scans
- Direct thermal barcode printer is included with the software
- Additional printers may be added to other EpiCenter workstations
- User-defined label quantity flexibility
