

# BD Pandemic Preparedness Contract for Public Health

Healthcare providers are faced with addressing many aspects of preparedness when planning for a crisis. BD recognizes these challenges and wants to help. A necessary part of pandemic preparation is securing a supply of medical devices in order to administer vaccines when they become available. In order to facilitate the mass vaccination process, BD is offering special pricing for syringe and sharps collector safety stock orders.

## Summary of BD Pandemic Preparedness Contract:

- Available to **public health providers** who are stockpiling syringes and sharps collectors for pandemic preparedness.
- Offers **special pricing** for items specific to a mass vaccination campaign.
- Has a **dedicated BD Pandemic Flu Hotline at 877-746-4687** for your convenience. Please call with any questions.

### Accessing the Contract:\*

- Contact the **BD Pandemic Flu Hotline at 877-746-4687** to request pricing and a "Letter of Commitment." This will need to be signed and faxed to BD at 201-847-4963 in order to access the pricing. (There is a syringe limit of twice the community's population, which will allow for two syringes per constituent. Orders will be monitored so that this quota is not exceeded.)
- We will contact you once we have processed your request to purchase syringes and sharps collectors at the special pricing, after which time you can place your order.

### Placing Orders:

- All orders should be placed through your distributor.
- Please have your SAP customer number available when you call your distributor, as it is the only way to ensure that you will receive the appropriate pricing. This number will be provided to you by a BD associate when you are notified that you can place your order.
- Your order will be shipped directly to you via ground delivery at no extra cost. Any rush deliveries will incur an additional charge.

### Educational Value Kit:

- BD has created a **Just-In-Time Injection Training Kit** to provide quick and simple training about how to administer an injection with BD safety-engineered hypodermic products. This tool is available because we understand that in a crisis situation, the public health community will likely be tasked with providing injection training to additional personnel or volunteers in order to mass vaccinate. Our BD Just-In-Time Injection Training Kits are available for an introductory purchase price of \$39.95 (a \$49.95 value). Order through the BD Education Center at 1-800-255-6334. You will receive one free kit per 20 cases of safety-engineered hypodermic products purchased through our **BD Pandemic Preparedness Contract!\*\***

Helping all people  
live healthy lives

\* This is not an offer. The terms of the agreement described herein are set forth in the BD Pandemic Preparedness Contract for Public Health Letter of Commitment.  
\*\* Purchases of conventional syringes and/or sharps collectors do not apply toward the 20 case requirement.
