Dear Friends,

Please accept our wholehearted thanks for your generous gift of \$14,575 to the U.S Fund for UNICEF, made on behalf of the 2,915 individuals who were involved in the BD Positively Zero Reflux campaign. We are grateful for their participation, which contributed to the tremendous success of this program.

For more than 60 years, UNICEF has been the world's leading international children's organization, working in over 150 countries to address the ongoing issues that affect why kids are dying. UNICEF provides lifesaving nutrition, clean water, education, protection and emergency response, saving more young lives than any other humanitarian organization in the world. While millions of children continue to die every year of preventable causes like dehydration, upper respiratory infections and measles, UNICEF, with the support of committed corporate citizens like BD and concerned donors alike, has the global experience, resources and reach to give children the best hope of survival.

On behalf of the many children whose lives will be saved and protected because of this generous gift, many thanks once again to BD and all who participated in this successful and innovative campaign.

With kind regards,

Cary M. Stern
President and CEO
