BD Vacutainer® Technology Built On Trust

BD works in collaboration with healthcare professionals, industry partners, and opinion leaders to maintain uncompromising standards of quality, integrity, and safety.

As the field of diagnostic testing continues to present complex and developing phenomena, BD is assuming a leadership role in the diagnostic industry to ensure the highest level of excellence for our products, services, and programs.

Since 1943, **BD Diagnostics** – Preanalytical Systems' traditions of innovation, customer focus, and putting both the healthcare worker and patient first, have helped us to transform emerging challenges into opportunities for even greater accuracy and product dependability.

To learn about BD Vacutainer® specimen collection products, educational materials, or services offered by **BD Diagnostics** – Preanalytical Systems, please contact your local BD Sales Consultant today.

BD Vacutainer® Blood Collection Tubes

BD Vacutainer® Blood Collection Tubes are clinically proven and supported with numerous clinical studies on a vast array of analytes and diagnostics platforms to document the efficacy, performance characteristics, and ease of use of our tubes. At BD, we understand that it's not just a test... it's a patient and the accuracy of your test result that matters most.

BD Vacutainer® SST™ Tubes

BD Vacutainer® SST™ Tubes contain spray-coated silica to aid in clotting and a polymer gel for serum separation. Samples processed in these tubes are used for serum determinations in chemistry, blood donor screening, and infectious disease testing.* BD Vacutainer® SST™ Tubes provide an efficient means of serum sample preparation and help to improve laboratory workflow.

BD Vacutainer® PST™ Tubes

BD Vacutainer® PST™ Tubes contain spray-coated lithium heparin and a polymer gel for plasma separation. Samples processed in these tubes are used for plasma determinations in chemistry. BD Vacutainer® PST™ Lithium Heparin Tubes eliminate the need to wait for a clot to form, making it an ideal tube for STAT procedures, as well as for patients receiving anticoagulant therapy. They provide the convenience of gel separation with the added advantage of improved turnaround time.

BD Vacutainer® Molecular Diagnostic Testing/Cell Preparation Tubes

BD Vacutainer® Mononuclear Cell Preparation Tube (CPT™)

The one-step, closed-system tube for blood collection, mononuclear cell separation, and transportation offers convenience, safety, and reproducibility contributing to increased lab productivity.

PAXgene™ Blood RNA Tube

The PAXgene™ Tube offers a convenient and closed-system for the collection, storage, and transportation of whole blood that requires intracellular RNA stabilization. The PAXgene™ tube is for in vitro diagnostics use and is CE-marked.

BD Vacutainer® Plasma Preparation Tube (PPT™)

The one-step, closed system tube for blood collection, undiluted plasma preparation, and transportation offers convenience, safety, and high-quality plasma for molecular diagnostic testing.

Proteomics Analysis and Protein Preservation BD™ P100 Blood Collection and Preservation System for Plasma Protein Analysis

BD™ P100 enables greater recovery and preservation of plasma proteins by the immediate mixing of blood with proprietary protease inhibitors. The on-board stabilizers, specifically formulated for human plasma, provide point-of-collection protection of valuable plasma proteins which are subject to proteolytic degradation and modification after blood collection.**

366456 (Outside North America)						

BD™ P700 Blood Collection and Preservation System for GLP-1 Analysis

BD™ P700 is especially suited as the blood collection tube of choice for assays that require quantitation and measurement of the preproglucagon-derived glucose regulatory peptide, glucagon-like peptide 1 (GLP-1). P700 contains a proprietary Dipeptidyl Peptidase IV (DPP-IV) protease inhibitor which provides immediate protection of GLP-1 from degradation in plasma.**

BD Vacutainer® Eclipse™ Blood Collection Needles

BD Vacutainer® Eclipse™ Blood Collection Needles offer a simple, effective way to collect blood and help reduce the possibility of accidental needlesticks with one-handed activation technique. Also offered with pre-attached holders for added convenience and OSHA single-use holder compliance.

Reference Number	Description	Needle Gauge	Needle Length (Inches)	Shield Color	Packaging Box/Case Quantities
368607	BD Vacutainer® Eclipse™ Blood Collection Needle	21	1.25	Green	48/480
368608	BD Vacutainer® Eclipse™ Blood Collection Needle	22	1.25	Black	48/480
✓ 368650	BD Vacutainer® Eclipse™ Blood Collection Needle with Pre-Attached Holder	21	1.25	Green	100
✓ 368651	BD Vacutainer® Eclipse™ Blood Collection Needle with Pre-Attached Holder	22	1.25	Black	100

BD Vacutainer® Passive Shielding Blood Collection Needles

BD Vacutainer® Passive Shielding Blood Collection Needles represent a new generation of safety from BD, the leader in safety-engineered technology. This is a total specimen collection system, with holder and needle integrated into the design so there is no assembly or disassembly required. The product is engineered to provide maximum protection against needlesticks during a blood draw. The safety shield on the needle releases automatically upon insertion of the first tube—providing protection from the time the first tube is inserted through product disposal.

Reference Number	Description	Needle Gauge	Needle Length (Inches)	Shield Color	Packaging Box/Case Quantities
✓ 368636	BD Vacutainer® Passive Shielding Blood Collection Needle	21	1	Green	25/200
✓ 368637	BD Vacutainer® Passive Shielding Blood Collection Needle	22	1	Black	25/200

BD Vacutainer® Blood Collection Sets

A successful venipuncture begins with choosing the appropriate site and equipment for the procedure. Healthcare workers should always select safety-engineered products that help contribute to high-quality specimens, patient comfort and healthcare worker safety. The BD line of winged blood collection sets can help you achieve these clinical goals.

BD Saf-T E-Z Set™ Shielded Winged Needle

After use of the BD Vacutainer® Saf-T E-Z Set™ Shielded Winged Needle, the needle can be completely retracted into the protective shield and securely locked into place.

Reference Number	Needle Gauge	Needle Length (Inches)	Wing Color	Tubing Length (Inches)	Configuration With or Without Luer	Packaging Box/Case Quantities

Venous Products

BD Vacutainer® Safety-Lok™ Blood Collection Sets

The BD Vacutainer® Safety-Lok™ Blood Collection Set is simple, easy to use, and is safety-engineered. The safety mechanism can be activated immediately after the blood draw and helps protect against needlestick injury. It is also offered with a pre-attached holder for added convenience and to help ensure OSHA single-use holder compliance.

Venous Products

BD Vacutainer® Accessories

BD Vacutainer® Accessories are designed for secure and safe specimen sampling. This product offering includes direct access sampling, transfer devices, tourniquets, and alcohol swabs. These products offer convenience, ease of use, and complement the family of BD Vacutainer® and BD Microtainer® products.

BD Vacutainer® Holders

BD Vacutainer® holders and adapters provide a quality, low-cost, single-use product that can help customers comply with OSHA regulations. The BD Vacutainer® One Use Holder is compatible with BD Vacutainer® Eclipse™ Blood Collection Needles, BD Vacutainer® Safety-Lok™ Blood Collection Sets, BD Vacutainer® Push Button Blood Collection Sets, and the BD Vacutainer® Multi Sample Luer Adapter.

Reference Number	Description	Packaging Box/Case Quantities
✓ 364815	BD Vacutainer® One Use Holder	250/1000
364597	BD Vacutainer® Ribbed Pediatric Tube Adapter	10/100
366487	BD Vacutainer® Single-Use Holder – Bell Adapter	250/1000

BD Vacutainer® Blood Transfer Device

Transferring venous blood from a syringe and needle to a blood collection tube or blood culture bottle is both a dangerous procedure and an OSHA-prohibited practice. The BD Vacutainer® Blood Transfer Device was designed with healthcare workers' safety in mind. This single-use device reduces the risk of transfer-related injuries, while maintaining the specimen integrity required for accurate disease diagnosis. The BD Vacutainer® Blood Transfer Device offers safety without exception and maintains quality without compromise.

Reference Number	Description	Packaging Box/Case Quantities
364880	BD Vacutainer® Blood Transfer Device	50/200

BD Vacutainer® Luer-Lok™ Access Device

The BD Vacutainer® Luer-Lok™ Access Device is designed for sterile, secure, and safer specimen sampling. This device provides the security of a threaded, locking luer connection—the patented BD Vacutainer® Luer-Lok™, that replaces a luer slip device. The product is also compatible with a female luer connection or needleless IV site designed for luer lock access, and the Bard® EZ-Lok™ Foley Catheter Sampling Port.

Reference Number	Description	Packaging Box/Case Quantities
✓ 364902	BD Vacutainer® Luer-Lok™ Access Device	50/200
✓ 366409	BD Vacutainer® Luer-Lok™ Access Device No Additive Plus Tube Kit: Luer-Lok™ Access Device, 6.0 mL, 13 x 100 Plus Plastic No Additive Tube with Clear BD Hemogard™ Closure	100
367290	BD Vacutainer® Luer Adapter	100/1000

NEW!

BD Vacutainer® Specimen Collection Assembly

Compatible with any split-septum collection port designed for blunt plastic cannula access.

Reference Number	Description	Packaging Box/Case Quantities
303380	BD Vacutainer® Specimen Collection Assembly with BD™ Blunt Plastic Cannula	25/200

BD Vacutainer® Stretch Latex-Free Tourniquet

Concerned about latex sensitivity? The BD Vacutainer® Stretch Latex-Free Tourniquet is ideal for practitioners and facilities that want to eliminate latex from their healthcare products. This latex-free tourniquet will not cause a latex-induced allergic reaction in latex-sensitive patients or employees. Convenient packaging allows for easy, one-at-a-time dispensing of tourniquets—encouraging a single-use policy that helps reduce the danger of cross-contamination between patients and healthcare workers.

Reference Number	Description	Packaging Box/Case Quantities
✓ 367203	BD Vacutainer® Stretch Latex-Free Tourniquet	25/500

Capillary Products

BD Micro Collection System

BD Microtainer® Capillary Products feature a complete system designed to provide safety, accuracy, and comfort for capillary blood sampling and collection, to meet your varying sample requirements.

BD Microtainer® Contact-Activated Lancets

The BD Microtainer® Contact-Activated Lancet has been designed with a positive patient experience in mind. The contact activation method facilitates a consistent puncture depth, and minimizes the likelihood of having to repeat the puncture. It covers only a small area at the contact point, resulting in improved visibility of the puncture site for the clinician and greater accuracy of lancet positioning when performing the puncture. Its innovative ergonomic design allows for a more comfortable grip. The lancet automatically retracts into the device, which prevents the lancet from being reused. In addition, the lot number is laser etched on each lancet for easier tracking.

Reference Number	Width and Depth (mm)	Blood Volume	Color	Packaging Box/Case Quantities
✓ 366592	30 G x 1.5	Low Flow	Purple	200/2000
✓ 366593	21 G x 1.8	Medium Flow	Pink	200/2000
✓ 366594	1.5 mm x 2.0	High Flow	Blue	200/2000

BD Microtainer® Genie™ Lancets

The safety-engineered BD Microtainer® Genie™ Lancet offers a full range of blades and needles for capillary blood collection, and features permanently retractable technology that protects the healthcare worker.

Reference Number	Width and Depth (mm)	Blood Volume	Color	Packaging Box/Case Quantities
366579	28 G x 1.25	Low Flow	Purple	200/2000
366583	23 G x 2.25	Low Flow	Orange	200/2000
366580	1.5 mm x 1.0	Medium Flow	Pink	200/2000
366581	1.5 mm x 1.5	Medium Flow	Green	200/2000
366582	1.5 mm x 2.0	High Flow	Blue	200/2000

Capillary Products

BD Microtainer® Quikheel™ Lancets

Maximize blood flow while minimizing pain in heelsticks on newborns with the safety-engineered BD Microtainer® Quikheel™ Lancet. Easy, one-handed activation releases a retractable surgical blade for making a precise, consistent incision that produces sufficient blood flow to conduct PKU testing. Sizes are color-coded for infant and preemie.

Reference Number	Width and Depth (mm)	Blood Volume	Color	Packaging Box/Case Quantities
✓ 368100	1.75 x 0.85	Low Flow (Preemie)	Pink	50/200
✓ 368101	2.50 x 1.00	High Flow (Infant)	Teal	50/200

BD Microtainer® Blood Collection Tubes

BD Microtainer® Blood Collection Tubes were designed for ease-of-use and help to ensure that a quality capillary blood sample is collected. The wider-diameter BD Microtainer® Tube with BD Microgard™ Closure features an integrated collector and improved mixing ability. This full array of microcollection tubes is available for hematology and chemistry applications, and is color coded to match the array of evacuated BD Vacutainer® Blood Collection Tubes.

Urine Products

BD Vacutainer® Urine Collection System

BD Urine Collection Products offer all the advantages of a closed system, for both patients and healthcare workers alike. Patients receive more reliable results, due to decreased preanalytical variability. Healthcare workers derive more safety on the job because they don't need to pour potentially contaminated urine into tubes, while the efficiency of the closed system eliminates the need for re-testing and re-labeling and reduces the potential for preanalytical errors. The preservatives in the BD Urinalysis Tube and the C&S Tube allow for delayed testing and are in compliance with CLSI guidelines.

BD Vacutainer® Urine Collection Kits

The BD Vacutainer® Urine Collection System provides a wide array of urine collection products to meet your everyday urine testing needs. The BD proprietary, mercury-free urinalysis preservative maintains sample integrity for up to 72 hours at room temperature, while the BD microbiology preservative maintains bacterial viability for up to 48 hours at room temperature. From collection to transport to specimen preservation, BD Vacutainer® Urine Products help you handle the most commonly collected and analyzed body fluid.

BD Vacutainer® Educational Services

At BD, we pledge to continually support the healthcare professional's need for high quality educational tools and training assistance by providing these value-added programs.

BD Global Technical Services

BD Global Technical Services is readily available to answer technical product questions and provide timely support in the clinical laboratory sciences. The BD staff is comprised of field-experienced professional medical technologists (ASCP certified), who strive to help customers improve their quality and consistency of preanalytical process, as well as the accuracy and reproducibility of test results.

BD Vacutainer Instruct®

This program was established to meet our customers' ongoing needs for professional education. On-site course presentations are customized to provide the most beneficial results for the personnel at each facility. Courses focus on the following type of information:

- The preanalytical phase of laboratory testing (Proper sample collection, processing, and transport)
- Troubleshooting incorrect handling procedures

S.P.I.R.I.T.® Inservice Training Program

The S.P.I.R.I.T. (Safety Product In Service Resources Initiative Training) program is designed to provide healthcare personnel training on BD safety-engineered products.

Web-Based Seminars (Webinars)

Benefit from our clinical knowledge and expertise in a user-friendly Webinar. Since BD is an approved provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program, you will earn continuous education credit for your participation.

Webinar program content will include relevant industry topics presented by knowledgeable keynote speakers. Visit www.bd.com/vacutainer for upcoming webinar events.

Scholarship Programs

BD in partnership with the Clinical Laboratory Management Association (CLMA) supports an annual scholarship, the Lyle Rosser, Jr. Continuing Education Program, which enables laboratory professionals to attend the annual CLMA conference for unparalleled educational and peer networking opportunities. BD is also a long time supporter of the American Association for Clinical Chemistry (AACC) and sponsors domestic and international travel grants to promote the global exchange of science and information.

NEW!

BD Laboratory Consulting Services

Our customized service offerings help address the increasingly complex needs associated with optimizing your laboratory business.

- Increase your revenue
- Lower your operating expenses
- Improve your productivity
- Elevate your patient care

For more information on these new services, please call BD Global Technical Services at **1.800.631.0174**

Clinical Documentation

More than 100 clinical studies on a vast array of BD Vacutainer® and BD Microtainer® products.
Also Available Clinical Documentation Reference Manual

Facts About Needlesticks

Prepared especially for Nursing and Phlebotomy staff members, these brochures contain facts about the dangers of needlesticks and the costs associated with them.

Videos

Instructional videos or CDs designed to aid in training healthcare workers on BD Vacutainer® specimen collection products.

Sample Collection Pocket Cards

Handy laminated pocket cards provide easy reference for: order of draw, tube additive guide, troubleshooting hints for blood collection, best sites for venipuncture and many more.

Quick Reference Cards

Handy pocket cards provide easy reference for using BD Vacutainer® specimen collection products.

Training Aids

BD foam baby foot training aid for heelstick technique.

Wall Charts

Instructional wall charts to help educate healthcare professionals.

LabNotes®

A quarterly newsletter, published by **BD Diagnostics** – Preanalytical Systems, to keep readers current on patient and healthcare worker safety as well as new preanalytical trends/issues in the clinical laboratory. For online subscription information, please visit www.bd.com/vacutainer/labnotes.

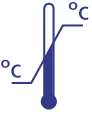

TechTalk®

A news bulletin to address frequently asked technical questions, with a focus on reducing preanalytical variables.

The Cornerstone of BD Diagnostics – Preanalytical Systems

Customer Focus

BD Vacutainer® Technology Built On Trust

Innovation

- Safety initiatives influencing industry standards
 - Clinical Laboratory Standards Institute (CLSI)
 - International Organization for Standardization (ISO)
 - World Health Organization (WHO)
- Continuous release of new specimen collection and preservative products
- Strong relationships maintained with instrument company partners, key opinion leaders, key distributors, Group Purchasing Organizations (GPOs), and Integrated Delivery Networks (IDNs)

Clinical Efficacy

- Ongoing clinical studies to validate and document product and system efficacy, performance characteristics, and ease of use

Quality

- For over 100 years, BD, a global medical technology company, has been providing quality products and services that healthcare professionals can trust

Service

- Dedicated **BD Diagnostics** – Preanalytical Systems Sales Consultants
- Dedicated ASCP Medical Technologists as part of our Global Technical Services Team
- Dedicated Instrument Company Liaison Team
- Customized training and educational support programs to ensure proper product utilization, resulting in improved patient and healthcare worker safety

BD maintains:

- A Medical Director who is board certified in Clinical Pathology, Blood Banking, and Transfusion Medicine
- A regulatory staff to help ensure compliance with worldwide regulatory requirements
- Use of Six Sigma principles for product design, manufacture, and quality assurance
- A commitment to Continuous Quality System Improvement
- ISO 13485:2003 certified

Assurance of Supply

- Five worldwide manufacturing facilities dedicated to BD Diagnostics – Preanalytical Systems
 - San Lorenzo, Puerto Rico
 - Nebraska, USA
 - South Carolina, USA
 - Plymouth, UK
 - Fukushima, Japan
- Multiple US distribution centers servicing an extensive distribution network
- Extensive array of specimen collection products
