

BD Vacutainer® Urine Foley Catheter Collection Kit

Designed with your convenience and safety in mind

CONNECT+PROTECT

Consider using the BD Vacutainer® Luer-Lok™ Access Device instead of a syringe to

- achieve proper sample/additive ratio in the tube
- reduce the need to manipulate samples
- eliminate the use of a cup since the samples are transferred directly to the tube

This convenient kit will help you to

- achieve improved sample quality and stability
- provide you with a better method for efficient sampling
- reduce SKU quantities
- allows for pneumatic tube transportation of specimen

Realize these benefits today.

Contact your BD Representative to schedule an appointment.

BD reference # 364909

Helping all people live healthy lives
