

CareFusion Knowledge Portal

for Pyxis MedStation® system

Optimization made easy with actionable information

Now, you can get information you can act on from your Pyxis MedStation® system from one source, the CareFusion Knowledge Portal. With just a few clicks, you can get med dispensing analytics to help optimize your devices and track performance trends, quickly and easily.

- Identify potential diversion issues
- Help prevent stock-outs by optimizing medication storage locations
- Monitor compliance with policies on controlled substance tracking
- Monitor compliance on dispensing medications without a patient order (order overrides)
- Streamline multiple device management with a simple, web-based application

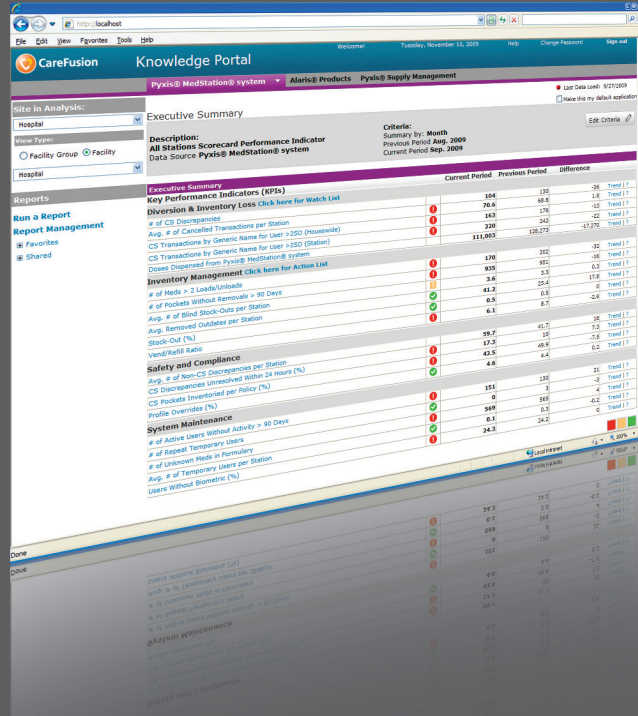

“The CareFusion Knowledge Portal helps us achieve our mission to provide comprehensive pharmaceutical care to all patients in a safe, efficient and cost effective manner and the analytics can help us find areas for improvement through pre-built reports that are very easy to run.”

Dr. Ahmed Al-Jedai,
Director Pharmaceutical Care Division & Consultant Clinical Pharmacist
King Faisal Specialist Hospital & Research Centre, Riyadh, KSA

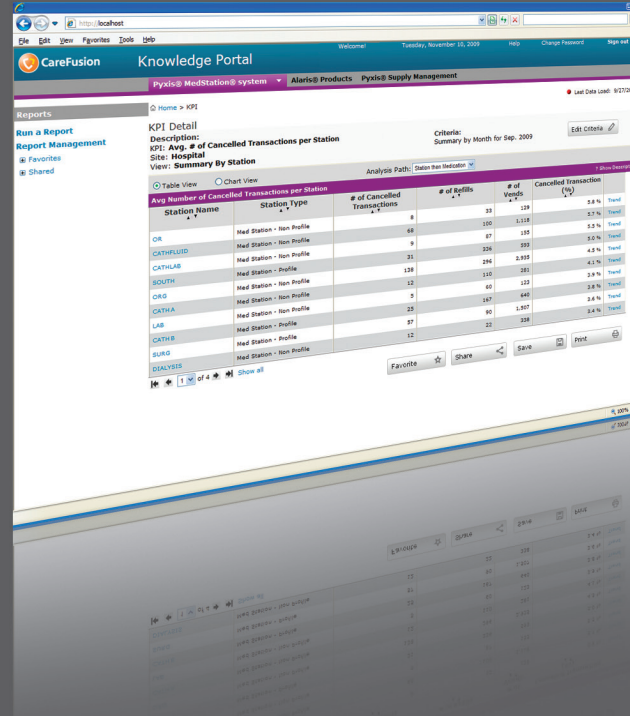

Pyxis®

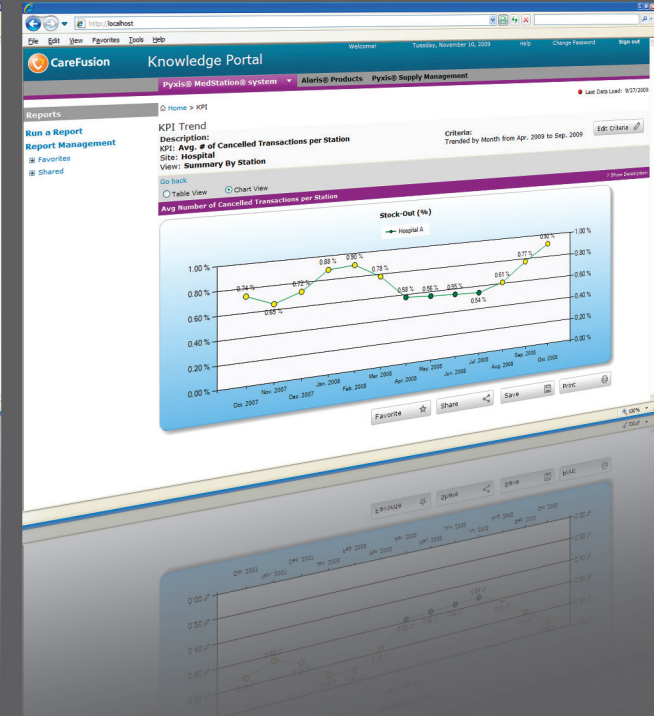

1. Provides overview of potential problem areas

2. Click to problem stockouts

3. Click to stockout trends

■	Possible problem
■	Area to watch
■	Performance OK
