Focus on Quality Care
Product Resource Guide

CareFusion
Every patient, every time.

With the Focus on Quality Care Program, CareFusion is helping put facilities on the path to quality improvement by providing clinical and technical support as well as a comprehensive patient care product portfolio that aligns with skin prep guidelines from the CDC and AORN.

ChloraPrep®
Skin Antiseptic
A complete line of skin preparation products to help reduce microorganisms on the skin that can cause infection.

Surgical Hand Hygiene Products
Waterless and water-aided surgical hand scrub products, including scrub brushes and sink-side solutions.

Surgical Clippers
An effective clipping solution to meet your hair removal needs.
StartClean Cleansing Program
Cleansing kit and reminder program to aid compliance.

Preval® Product Line
One-step iodine-based products.

Preoperative Antiseptic Solutions
Full line of CHG, PVP-I and Chloroxylenol antiseptic products for patient prep and routine hand washing.

Skin Prep Trays
Eight configurations of wet and dry patient prep trays designed for a range of procedures.
ChloraPrep®
Preoperative Skin Antiseptic
(2% chlorhexidine gluconate & 70% isopropyl alcohol)

A complete line of skin preparation products to help reduce microorganisms on the skin that can cause infection.

Single 1.75mL:
48 applicators per carton, 10 cartons per case
Triple 5.25mL:
40 packages per carton, 10 cartons per case
CareFusion Surgical Clippers offer an enhanced, more durable and energy-efficient design to better meet preoperative hair removal needs. CareFusion Surgical Clippers quickly remove hair in a single pass, helping reduce the risk of compromising the skin compared to traditional razors. CareFusion also offers an ergonomic handle that’s fully submersible* for more thorough cleaning and disinfecting. Its battery technology allows the handle to be placed on the charger when not in use, ensuring long battery life.

*Surgical Clippers can be submersed up to one meter in depth for up to 30 minutes.

Surgicept® Waterless Surgical Hand Scrub

Quick-drying Surgicept® hand scrub is an effective and convenient waterless surgical hand antiseptic that meets FDA surgical hand scrub testing requirements for rapid, persistent and cumulative activity against hand flora. Formulated with a combination of emollients, Surgicept® leaves hands feeling soft and smooth, and ready to glove.

Uses: Surgical hand scrub and healthcare personnel handwash.

**Surgicept® Infrared Dispenser for 1150mL**

SKU: 109245
1 per case
Triseptin® Water-Aided Surgical Hand Scrub

Triseptin® Water-Aided Surgical Hand Scrub is an alcohol-based antiseptic that works with water to reduce microorganisms on the skin. Whenever water is preferred, Triseptin® provides both skin-conditioning benefits and highly effective antimicrobial protection. Triseptin® is an excellent choice, especially for the first scrub of the day.

**Uses:** Surgical hand scrub and patient preoperative shower scrub.

Chloroxylenol 3.3% Cleansing Solution with Emollients

3.3% parachlorometaxylenol (chloroxylenol) is a mild antimicrobial solution that is usually well-tolerated for surgical hand scrubbing.

Uses: For cleansing hands and arms prior to surgery.

Surgical Hand Hygiene Accessories

For Surgicept® and Triseptin®

The 57-degree and 90-degree brackets can be used to mount both the Surgicept® and Triseptin® dispensers, depending on the location. The 90-degree bracket is used to mount to a shelf or flat surface. The 57-degree bracket is used to mount to a stainless steel scrub sink.

57° Wall Bracket

1 per box

90° Wall Bracket
SKU: 0064-1030-90
1 per box

Scrub Care® Bracket with Foot Pump
SKU: 4PUMP30
1 per case

Replacement Foot Pump Bulb for 4PUMP30
SKU: 4BULB30
5 per case

For Scrub Brushes

A wall-mounted bracket holds the scrub brush cartons, which conveniently dispenses single scrub brushes.

Wall-mounted Bracket for 300-count Brush Box
SKU: 44BRUSH
1 per case

For 30-oz. Scrub Care Bottles

The Scrub Care® 30-oz. bottle bracket secures product to sink-side, while the foot pump facilitates dispensing.

Nail Picks

Nail picks help to maximize thorough hand cleaning.
StartClean Cleansing Program

The StartClean Cleansing Program is a cleansing program that combines a CHG cleansing kit with an individualized reminder service (text, email, voice message) to increase patient compliance with physician cleansing instructions.

**Uses:** General skin cleansing.

---

**StartClean Kit**

SKU: CLEAN1

Contents of the kit:
- One 4-oz. bottle of Exidine® 4% CHG
- Three single-use 4" x 5" x 1" sponges
- Contents are latex-free and non-sterile

30 units (3 cartons of 10 per case)
Exidine® 2% CHG Scrub Solution & Exidine® 4% CHG Scrub Solutions

These are the same 2% and 4% chlorhexidine gluconate (CHG) solutions found in several of the CareFusion preoperative skin preparation trays, available in various volumes for your convenience.

**Uses:** Use as a patient preoperative skin preparation, surgical hand scrub or healthcare personnel handwash.
