

BD The Edge Program

“On the *edge* of technology and business”

Developing Technology & Global Services’ next generation of leaders.

Mission statement: The Edge Program’s vision is to empower early-career professionals through immersive learning opportunities focused on technology-enabled business solutions and service offerings within Technology & Global Services. Edge associates rotate through diverse roles working with emerging technologies and services to apply best practices in solving global business challenges. By pairing executive mentorship with impactful opportunities, the Edge Program offers the skills and experiences associates need to grow professionally as they support BD in serving the global community by advancing the world of health.
