

BD Product Name: **Care Coordination Engine**

Date of Critical or Security Patches: February 2021

Abstract: Critical or Security Patches – February 2021

Microsoft® & Third-Party Patches

BD has identified patches from Microsoft® that have been identified as critical or security related for February 2021.

The patches include updates that may adversely affect BD CCE. These patches will not be and should not be installed CCE Windows Server 2008 standard at this time.

Customers that maintain patches independent of BD automated delivery should ensure these actions are not performed as the acting responsible entity in order to maintain the correct security posture of the system(s).

Note: These patches only apply to the latest supported version(s) of the BD offering.

Patch Name	Description	Patch ID	Notes
Windows Malicious Software Removal Tool - v5.84	After the download, this tool runs one time to check your computer for infection by specific, prevalent malicious software (including Blaster, Sasser, and Mydoom) and helps remove any infection that is found. If an infection is found, the tool will display a status report the next time that you start your computer. A new version of the tool will be offered every month. If you want to manually run the tool on your computer, you can download a copy from the Microsoft Download Center, or you can run an online version from microsoft.com. This tool is not a replacement for an antivirus product. To help protect your computer, you should use an antivirus product.	KB890830	1

2021-02 Servicing Stack Update for Windows Server 2016 for x64-based Systems	Microsoft pulls Windows KB4601392 for blocking security updates	KB4601392	2
--	---	---------------------------	---

1. Note 1: This available update is not able to install due to an expired license issue on DoD Windows 2008 Server 64-bit operating system.
2. Note 2: Microsoft has pulled a problematic Windows servicing stack update (SSU) after blocking Windows Server customers from installing the security updates released during this month Patch Tuesday.
