2021-05 Cumulative Update for Windows Server 2016 for x64- based Systems (KB5003197)	Improvements and fixes This security update includes quality improvements. Key changes include: • Addresses an issue with evaluating the	KB5003197	N/A

compatibility status of
the Windows
ecosystem to help
ensure application and
device compatibility
for all updates to
Windows.

- Provides a DWORD registry key to address a performance issue that might occur when you use the Background Intelligent Transfer service (BITS) to download many files. Set the DWORD registry key as "HKEY_LOCAL_MAC HINE\SOFTWARE\Micr osoft\Windows\Curren tVersion\BITS\EnableL argeBuffer= 0x1". After you set the registry key, restart the machine, or restart BITS to enable the use of large buffer size and file size incrementing.
- Addresses an issue in Task Scheduler that causes monthly tasks and tasks scheduled for 0 UTC to occur at the wrong time.
- Security updates to Windows App Platform and Frameworks, the Microsoft Scripting Engine, and the Windows Silicon Platform.

2021-06 Servicing Stack Update for Windows 10 Version 1809 for x64- based Systems	Platform, and Windows Storage and Filesystem. Updates to improve security when Windows performs basic operations. Updates to improve Windows OLE (compound documents) security. Updates for verifying usernames and passwords. Updates for storing and managing files. Updates to improve security when using input devices such as a mouse, keyboard, or pen. This update makes quality improvements to the servicing stack, which is the component that installs Windows updates. Servicing stack updates (SSU) makes sure that you have a robust and reliable servicing stack so that your devices can receive and install Microsoft updates. Additionally, this update addresses an issue in which an inconsistent shutdown during Windows Update corrupts the Windows Management Instrumentation (WMI) repository and causes Microsoft Operations Framework (MOF) Advance Installer failure.	KB5003711	None
2021-06 Cumulative	This update is included in the	KB5003778	None
