

BD Product Name: **Identity provider management (IDM)**

Date of Critical or Security Patches: July 2021

Abstract: Critical or Security Patches – July 2021

Microsoft® & Third-Party Patches

BD has identified patches from Microsoft® that have been identified as critical or security related for July 2021.

The patches include updates that may adversely affect Identity provider management (IDM). These patches will not be and should not be installed on Identity provider management (IDM) at this time.

Customers that maintain patches independent of BD automated delivery should ensure these actions are not performed as the acting responsible entity in order to maintain the correct security posture of the system(s).

Note: These patches only apply to the latest supported version(s) of the BD offering
