

When was your last **cervical** cancer screening?

Anxiety, demanding jobs, parenting and more keep many from getting screened. With the BD Onclarity™ HPV Test, you don't have to choose between your health and your needs.

Private

No pelvic exam is required since you collect your own sample.* The power is in your hands—literally.

Accurate

The results you get are similar to **a traditional Pap test** from your provider.⁸

Powerful

Delivers the **most results** and individually detects more high-risk HPV types.^{†,5}

*Self-collected vaginal specimens can be tested as an alternative specimen type when cervical sampling is either contraindicated or cervical samples otherwise cannot be obtained.

It's our bodies. Our comfort. Our care.

Your life is worth protecting. Test for cervical cancer on your terms. Choose the most comprehensive[†] HPV test done by yourself in a healthcare setting or at home.

Get it done.

Test on your terms. Protect your future from cervical cancer.

Now you have the option to privately collect your own sample with the BD Onclarity™ HPV Test.*

Learn more

You never think it
could be **you**

Human papillomavirus (HPV) can cause cervical cancer.¹ Routine screening can save your life. Catching HPV early is the key to preventing cervical cancer.

4 out of 5

women by the age 50 will have
HPV at one point in their lives.²

Know your HPV risk

There are many types of HPV. Some have a higher risk of causing cervical cancer.³ You and your healthcare provider can understand your risk with a test that detects the most high-risk HPV types.^{†,4,5}

BD Onclarity™ HPV Test

**Protect yourself against cervical cancer,
your way**

BD Onclarity™ HPV Test puts you in control. It's the same test healthcare providers already use, but now you can do it at home.*

Done privately in your provider's office or in the comfort of your home and takes less than a minute*

Only need to insert a thin swab 2 inches into the vagina to collect sample

Aligned with the latest medical guidelines and FDA approved^{4,6}

Don't settle for less

Some HPV tests only give results for two types of high-risk HPV. The BD Onclarity™ HPV Test reports the most high-risk HPV types, so you can avoid unnecessary follow-up testing and invasive procedures.⁷

*Self-collected vaginal specimens can be tested as an alternative specimen type when cervical sampling is either contraindicated or cervical samples otherwise cannot be obtained.

This is not your grandma's Pap

It's a swab designed for you. Stirrups, speculum and anxiety not included.

*The swab shown represents actual size.
