

Integrated system, smart workflows

We provide the **only centralized user interface** for multiple modalities. It's **integrated, interoperable*** and **efficient**. So you can easily scale your teams **across your infusion needs and your health system**.

“

BD Alaris™ is the market leader in interoperability. We've pursued interop solutions with other vendors and they even come close to BD's capabilities, expertise and strength. BD offers us a proven, trusted solution that makes it easier to collaborate with others and bring on staff quickly.

—Robert Ben McDaniel, Clinical Informatics, MD Anderson

”

*Interoperability available only for BD Alaris™ LVP and BD Alaris™ Syringe Module

75%

of infusion errors
could have been
averted with pump
integration. ^{xi}
