Dear Valued Customer,

Thank you for your continued partnership with BD. You are receiving this letter because your organization has purchased BD® E-Z Scrub™ Preoperative Surgical Scrub Brushes within the past year.

Over the past several years, the cost of manufacturing and delivering scrub brush products has increased substantially. To ensure the long-term availability, quality, and reliability of the BD® E-Z Scrub™ product line, BD has made, and continues to make, significant investments in our manufacturing operations, supply chain, and production capabilities. These investments are essential to maintaining this category, supporting a dependable supply of scrub brushes, and ensuring we can continue to meet the high standards our customers expect. Among other things, BD has:

- Increased domestic sourcing to improve supply reliability and reduce tariff exposure.
- Streamlined operations to improve efficiency and reduce complexity.
- Invested in manufacturing, quality systems, and supply chain resiliency.
- Made a significant investment in our Sandy, Utah manufacturing facility to modernize operations, strengthen supply continuity, and support the long-term sustainability of the scrub brush product line.

While BD continues to absorb a portion of these increased costs, ongoing investments are necessary to maintain supply, quality, and product availability. Given these and other dynamics, BD will implement a price increase for BD® E-Z Scrub™ Preoperative Surgical Scrub Brushes effective **November 1, 2026**.

We appreciate your understanding and continued partnership as we make these investments to support the future of this important product category.

If you have any questions, please contact EZScrub.Customer.Inquiry@bd.com.
