

BD Pyxis™ MedStation™ 4000

January 2020

Critical and/or Security Patches – January 2020

BD has identified patches from Microsoft® that have been identified as critical or security related for January 2020.

The patches include updates that may adversely affect MedStation™4000. These patches will not be and should not be installed on MedStation™4000 at this time.

Customers that maintain patches independent of BD automated delivery should ensure these actions are not performed as the acting responsible entity in order to maintain the correct security posture of the system(s).

Note: These patches only apply to the latest supported version(s) of the BD offering

Patch Name	Patch Description	Patch ID	Notes
Security Monthly Quality Rollup for Windows Server 2008 for x86-based Systems	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	KB4531787 KB4530677 KB4530719	1

Notes:

1. Updates will not install on BD Pyxis MedStation 4000 (2008 Console only). Patches mentioned above are not approved for installation on this product.
