

# Security Patches: BD Synapsys™

September 2022

BD has identified patches from Microsoft® that have been identified as critical or security related for July 2022. These patches were not found to adversely affect BD products and will be applied according to customers' service agreements.

Customers that maintain patches independent of BD automated delivery should ensure the validated patches are installed on their BD systems as the acting responsible entity in order to maintain the correct security posture of the system(s)

## Microsoft® patches

Patch name	Description	Patch ID	Notes
Servicing stack update for Windows Server 2016	This update makes quality improvement to the servicing stack, which is the component that installs Windows updates.	<a href="#">KB5016058</a>	This update must be installed prior to all other updates
Windows Server 2016 Cumulative security update.	Addresses several security and quality issues for the Windows operating system.	<a href="#">KB5015808</a>
