

BD Speaker profile

Cheryl Campos, DNP, RN-BC, CEN, CPHQ

Dr. Campos is an experienced Clinical Performance Improvement Specialist, Nursing/Physician Peer Review Specialist, and Critical Care Educator with over 20 years of Emergency Department nursing experience. She has been a nurse for 29 years and earned her BSN from Chico State, her MSN from University of Phoenix, and her Doctor of Nursing Practice at Capella University.

She has extensive teaching, project facilitation skills and presentation experience. Dr. Campos successfully implemented a performance improvement project at Salinas Valley Memorial Hospital by implementing an ultrasound-guided vascular access program to address difficult venous access (DVA) patients.

She is passionate about sharing her experience to transfer knowledge on best practices in vascular access placement for difficult venous access patients.
