BD Veo™ Insulin Syringes with BD Ultra-Fine™ 6mm needle
meet recent clinical recommendations for insulin delivery

Did you know that over 50% of patients are still using a needle that is longer than clinically recommended (8 mm or 12.7 mm)?

Pharmacists can make a difference

Introduce your patients to BD Veo™ Insulin Syringes with BD Ultra-Fine™ 6mm needle today

- Approximately 8x lower risk of intramuscular injection
- 6 mm x 31G needle designed for a more comfortable injection

BD Veo™ is preferred by most patients over longer needles

* Excluding safety syringes.
† Compared to a 12.7 mm needle, when inserted at 90° without a pinch-up technique in an adult population.
‡ Compared to longer insulin syringe needles.
BD Insulin Syringes are the #1 selling brand2*

- Available in all barrel capacities
- Covered by most health plans at the preferred co-pay, including Medicare Part D†
