

# BD Microtainer® MAP Microtube for Automated Process

When Every Drop Counts

Helping all people  
live healthy lives

When caring for your most fragile patients, keep your focus on the patient and let **BD Microtainer® MAP Microtube for Automated Process** take care of the sample.

At BD we understand the importance of the laboratory's role and how critical it is to provide **accurate results**. We are proud to equip you with innovative solutions intended to help you deliver the quality of care your patients deserve.

**BD Microtainer® MAP Microtube for Automated Process** is designed to help you keep your laboratory running as efficiently and effectively as possible by enabling:

- Automated processing of 375 µL of blood
- Streamlined operations to reduce turnaround time, labor materials and associated costs
- Patient identification with standard labels to avoid potential labeling errors, and/or relabeling
- Reduction in errors caused by manual handling

# BD Microtainer® MAP Microtube for Automated Process

**Pierceable cap**, compatible with instrument probes

**Twist-assist closure**, for easier cap removal, **snaps closed** and ensures **safer leak-free** transportation to the lab

One piece 13x75 mm tube with **integrated collector**

Three clearly **visible fill lines** to ensure proper collection volume

**Number of inversions** illustrated on the tube label

Full size standard label with **V-Notch™** feature provides a visual guide for proper placement of labeling

Packaging is recyclable

Ref #	Description	Box/Case Quantities
363706	BD Microtainer® MAP Microtube for Automated Processing: K2EDTA Additive 1.0 mg, 13x75 mm, Volume 250-500 µL	50/200

**We value your time.** This product's innovative design can help you to improve your workflow because it is designed to fit standard instrument racks and is compatible with the most commonly used instrument platforms.

**BD Microtainer® MAP Microtube for Automated Process** is one of the many tools designed by BD to streamline your work processes in order to deliver uncompromising standards of quality, integrity and safety in your lab.
