

BD Vacutainer® Plus UA Preservative Tube

The quick, safe way to minimize preanalytical errors in urine testing

Helping all people
live healthy lives

BD Vacutainer® Plus UA Preservative Tube

The **BD Vacutainer® Plus UA Preservative Tube** is designed to give you more time to test and process your urinalysis samples. With its unique formulation samples can be preserved for up to **72 hours without refrigeration**.

This allows you to maintain sample integrity and helps to minimize preanalytical errors and unnecessary cultures due to bacterial contamination or overgrowth.

Clinically proven with the Siemens Clinitek® Atlas®, Iris® iQ200 and Sysmex® UF-50 instruments.

Additional benefits include:

- Improved accuracy and workflow
- Easy mixing
- Enhanced instrument compatibility

The BD Vacutainer® Plus UA Preservative Tube is also mercury free*.

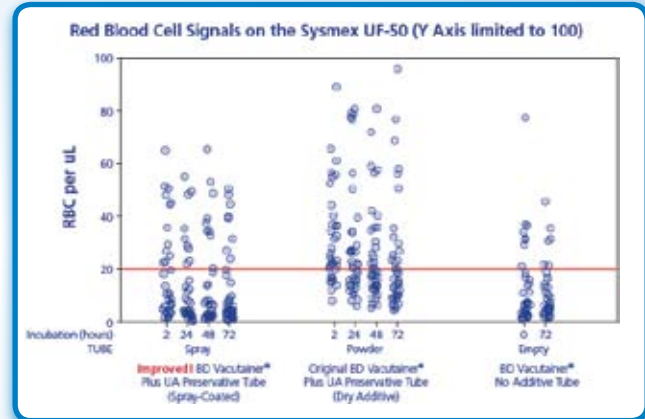

*In compliance with the memorandum of understanding between the EPA and American Hospital Association, calling for the elimination of all mercury waste in hospitals by the year 2005.

BD Vacutainer® Plus UA Preservative Tube

Now featuring a spray-coated additive for **easier mixing**

Providing you with **enhanced** instrument compatibility

Results of **Improved!** BD Vacutainer® UA Preservative Tube¹
