Drug Facts

Active ingredient

Povidone-iodine, USP 7.5% (0.75% available iodine) Antiseptic

Purpose

Antiseptic

Uses ■ **Surgical Hand Scrub:** Significantly reduces the number of micro-organisms on the hands and forearms prior to surgery or patient care ■ **Patient Preoperative Skin Preparation:** for preparation of skin prior to surgery. Helps reduce bacteria that potentially can cause skin infection. ■ **Antiseptic Handwash:** for handwashing to reduce bacteria on skin

Warnings

For external use only

Do not use ■ in the eyes ■ on persons allergic to iodine

Stop use and ask a doctor if ■ skin shows symptoms of irritation, sensitivity, redness, pain or swelling. If condition persists for more than 72 hours, consult a doctor. ■ in case of deep puncture wounds or serious burns

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions ■ **Surgical Hand Scrub:** clean under the nails with a nail pick. Nails should be maintained with a 1 millimeter free edge; wet hands and forearms; scrub for 3 minutes with about 5 mL of scrub and a wet brush; pay particular attention to the nails, cuticles, and interdigital spaces; rinse and repeat ■ **Patient Preoperative Prep:** clean the area; apply solution saturated sponge; starting at the surgical site moving outward in concentric circles for a minimum of 5 minutes; blot with sterile towel; follow with application of topical solution ■ **Antiseptic Handwash:** wet hands and forearms; apply ample amount of solution to wet hands; wash in vigorous manner for 15 seconds; rinse and repeat

Other information ■ store at room temperature ■ avoid excessive heat (above 104°F/40°C) ■ protect from freezing
■ latex free

Inactive ingredients alkyl polyglucoside, citric acid, nonylphenol ethoxylate, purified water, sodium hydroxide
