Experience BD Diagnostics – from lab efficiency to clinical responsiveness

Monday, 2nd April, 16.00 – 18.00
Lecture Hall: Capital Suite E

European Standardisation, and Automation in Microbiology

Chair: Prof. R. Courcol, Lille, France
Prof. P. Apfalter, Linz, Austria

Full integration of automated identification (Maldi Tof) and susceptibility testing in the era of EUCAST and accreditation requirements

Prof. J.L. Herrmann, Hôpital Raymond Poincaré, Paris, France

Quantitative drug susceptibility testing and clinical drug resistance in M. tuberculosis - a multi-centre study to develop European standardisation

Prof. E.K. Böttger, Institute Med. Microbiology, Zurich University, Switzerland

Standardisation of best practices in blood culture collection: an innovative e-learning programme to facilitate the change
Mrs. A. Jeanes, UCLH, London, U.K.

Total Lab Automation - myth or reality?
Dr. P. Murray, Sparks, USA
Mr. N. Bentley, Addenbrookes, Cambridge, U.K.
